Summary

Fullstack Web Developer with a Certificate From University of Adelaide with prominent skills in Javascript, React, Nodejs & Expressjs and much more. Team Leader with 5+ years in the retail industry, experience in budget management, Employee Rostering, Auditing, Invoicing. With a passion for design and an appetite for knowledge to further expand my understanding and further expand my skill set with a forward thinking company with an emphasis on collaboration, Data management and Web Services.

Technical Skills

- ➢ HTML5, CSS3, Javascript
- ➢ Jquery, Bootstrap, Expressjs, Nodejs
- ➢ Mongodb, MySQL
- ➢ React, Redux, MERN stack

Projects

Personal Code Library
A personal library for users to log in to their personal account and have access to resource and users posts in a forum or dashboard format.
Repo: https://github.com/Callumwhite210/Personal-Code-Library
Deployed: https://personalcodelibrary.herokuapp.com/
Technology
React, React-bootstrap, SyntaxHighlighter, Auth0, Axios, Mongodb

Mad Notes
A website to post your thoughts. The application uses MySQL and Node to query and route data, Express, Handlebars to generate HTML and a sequelize ORM. The application also uses the bad-words package via NPM to filter "bad words" out of posts. The MVC design pattern was also utilised. The site is deployed on Heroku utilising JAWSDB.
Repo: https://github.com/Callumwhite210/Project-2
Deployed: https://hidden-garden-41688.herokuapp.com/
Technology
HTML5, CSS3, Bootstrap, MySQL, ProfanityFilter
